Maldives Golden Year of Tourism

The year 2022 marks the 50th anniversary for the Maldives tourism industry. Tourism is the largest economic industry in the Maldives, as it plays an important role in earning foreign exchange revenues and offers the employment of up to 25,000 people. The beautiful archipelago of the Maldives is the main attraction to many tourists and incredible coral reefs are the foundation of the islands. These reefs offer protection to the tiny islands as its natural defense system and the country's economy depends heavily on the health of its beautiful reefs and intricate ecosystems.

As part of Small Luxury Hotels of the World Considerate Collection, we are committed to playing our part in protecting the diverse marine ecosystem of the Maldives through coral restoration projects, reef monitoring and strict guidelines on snorkelling behaviour. Besides that, we are currently reducing our plastic, food waste, energy consumption and the use of insecticides. We aid Olive Ridley Project and Manta Trust in their research efforts as well as cooperate with passionate Maldivians to magnify their environmental projects to support grassroots conservation in the Maldives.

Activities Calendar

Menopause Awareness for 50 Local Women

Our visiting naturopath and wellness coach, hosting the perimenopause and menopause retreat, offers the opportunity to local woman to learn about the changing of hormones from a certain age while addressing physical, emotional and lifestyle issues.
